

## ***Mission Possible?***

**When time and obstacles seem against you, there's only one team for the job. Speak to the experts today at [JGMUSA.com](http://JGMUSA.com) or 610.873.0081!**

## ***At JGM, the answer is always yes.***

**We provide the services needed to turn your conceptual ideas into a reality.**

JGM understands Mission Critical Projects. When your operation is down, either scheduled or not scheduled, it is critical that you have a partner that understands all the details and the critical path to get you back up and running. We take a very collaborative approach that allows the very best ideas from the very best in the industry to deliver a solution. JGM is a team of problem solvers!

**A successful shutdown, turn around, maintenance or mission critical capital project requires the following:**

- **Best in Class Craft Trades**
- **A Well Thought Out Safety Plan**
- **A Team of Great Material and Equipment Vendors**
- **Top Supervision**
- **A Critical Path Schedule**
- **Constant Communication Between All Stakeholders**
- **An Accountability Plan for the Contractor, Owner, Designer, Subcontractors, Etc.**

**The JGM Team has:**

- **ASME Certified Welders for B31.1 & B31.3**
- **AWS D1.1 Certified Structural Welders**
- **Full Time Certified Weld Inspector**
- **Confined Space Training**
- **Certified Riggers**
- **NCCCO Trained Crane Operators**
- **OSHA 30 Trained Supervisors**
- **MSHA Part 46 Trained Craft**
- **OSHA 10 Training for All Employees**
- **65,000 SF AISC Certified Fabrication Facility**
- **ISNETWORLD & Avetta Approved Contractor**

JGM is big enough to tackle some of your most complex projects yet small enough to adapt to change and move at a moment's notice! JGM has a 65,000 square foot fabrication facility and several partner facilities that support our field operations around the country for all structural steel, process piping and custom fabrication needs. Our equipment and material vendor relationships that we have built over the last 15 years enable us to move mountains when needed!

***Our extensive mission critical industrial services include:***

Steel Erection

Process Piping

Millwright Work

Equipment Setting

ASME Code Welding

Turnkey Construction Management

Fast Track Steel Fabrication

Heavy Rigging and Hauling
